

Where peace of mind is considered, security is the answer

Security in schools is a must for the protection of students and staff and for creating a “**peace of mind**” for **school administrators, boards, principals, to help them get control** of school safety as well as reducing the safety risk and liability. Our school security service department is responsible for protecting and serving the school community. Our school security guidelines include:

- [Intellectual security](#) :

- o Time and attendance

- o RFID Technology

- o Alarm system

o Telephonic communication system

- [Physical security](#) :

o Camera system

o Access control system

o Intruder alarm system

o RFID technology

- [Body security](#) :

o Metal detector for knives or any sharp objects

o Metal detector for weapon

o Explosive detector
